October 27, 2009 Tuesday	7:30am 3:00-4:00pm	Empty 96 gallon roll out carts Empty and collect all recycling materials and carts/cans

NCLM Recycling at the Convention Center, Hilton and on the Buses will be performed by Public Works. Eleven distinctive Recycling Containers will be positioned with six (6) in the Convention Center and five (5) in the Hilton. Each bus will have a blue recycling bin. The recycling volunteer will collect recycling from all eleven (11) containers per schedule using a new Blue Recycling Toter container. The Blue Recycling Toter container will be positioned in a place (not visible by public) in the vicinity of the Convention Center's trash containers. The drivers on the bus will monitor their containers and empty them. The drivers will utilize a 18 Gallon bin provided by the Recycling Volunteer (Supervisor). The 96 gallon cart will be available in the depot area (loading and unloading area) of the Convention Center. This cart will be returned to Convention Center's trash area by the Supervisor and Recycling Volunteer. A City Recycling truck will collect it once Monday and Tuesday morning. Truck will access and depart the area via Landmark Street. After the Conference is complete, the Recycling Volunteer will empty all containers and preposition for pick up Tuesday afternoon.
